

QuadBox™ Reversible Ratcheting Wrenches

PRODUCTIVITY

Four different sizes in one convenient ratcheting wrench

ACCESS

5° ratcheting arc vs. 30° on standard combination wrenches.

STRENGTH

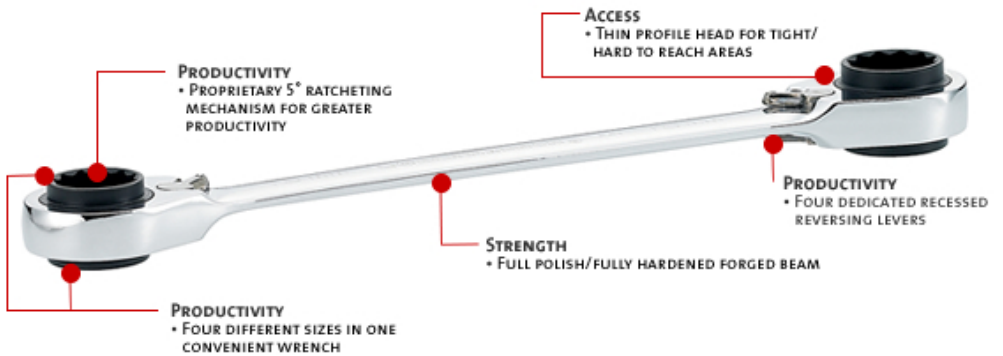

Full polish / fully hardened forged beam.

QuadBox™ Reversible Ratcheting Wrenches

Available with your Qualified Order!

GearWrench™ QuadBox™ Ratcheting Wrenches feature 4 sizes from just one reversible ratcheting wrench for versatility and ease of use. It includes four dedicated recessed reversing levers for easy change of direction. The wrenches are made of a thin profile head for tight and hard-to-reach areas and are fully polished and their hardened forged beam provides extra strength.

- 4 Sizes in Just one Reversible Wrench make this an extremely versatile wrench saving space in toolboxes, reducing costs and saving time.
- Every size is reversible for added speed, convenience and increased productivity.
- Thin profile head for tight and hard-to-reach areas.
- Full polished and hardened forged beam make these wrenches comfortable to handle with superior strength for added value.

FOUR DIFFERENT SIZES IN ONE CONVENIENT WRENCH!
