

# ThreadMate™

## UNIVERSAL REPAIR TOOLS

### ThreadMate™ MINI Kit

New – This set can fix any damaged thread in diameter between #12 – 1/2" (M5 – M12) internal and 5/32" – 1/2" (M4 – M13) External.

- ThreadMate™ is a great solution for the following industries: outdoor technicians, industrial maintenance, workshop, auto garages, marine use, farmers, auto mechanics, professional and hobby users, motorcycle and bicycle repair.
- Small size kit fits any toolbox.
- External Thread repair tool – Like the standard NES tools, ThreadMate™ is a mechanical hand tool designed to repair and restore damaged external threads.
- Easy-to-use tool with built-in knob – just set and turn.
- Kit contains replaceable Nylon pads for soft metal repair jobs.
- Clean thread in both ways – inside out or outside in.
- Easy to operate, no special thread knowledge required – works on USS, SAE, Metric, Fine, Coarse, etc.
