

# CARBIDE BURS

# SABER CUT

## CARBIDE BURS

### SABER CUT FLUTES:

FOR USE IN MILD STEEL AND OTHER SEMI-HARD MATERIALS.

MAXIMUM STOCK REMOVAL

ENGINEERED FOR HEAVY DUTY APPLICATIONS

WIDER TEETH MAKE LONGER CHIPS THAT BREAK UP EASIER AND LESS PRONE TO CLOGGING.

Precision manufacturing and design means our burs:

- **Have unparalleled rotational balance**, which reduces pulling for better finished results and extended life.
- **Deliver consistent performance** and reliability for maximum value.
- **Manufactured from C2 grade carbide** for strength, durability and high performance metal removal.
- **Carbide stays harder** and sharper longer, saving time and money.

### 7 Saber Cut Burs with Index & 1/4" Air Die Grinder

IBS No. 16996

IBS No 69282

1/4" Air Die Grinder

The rugged, lightweight grinder is designed for tough, tight quarter jobs that require fast metal removal. Very maneuverable and perfect for those hard-to-reach areas.

### 7 Saber Cut Burs with Index

IBS No. 16997

### Index comes with:

IBS No.	Type	Head Dia	Head Length
16907	Cylinder	3/8	3/4
16909	Cylinder	1/2	1
16926	14° Taper	3/8	1-1/16
16936	Cylinder Rad	3/8	3/4
16938	Cylinder Rad	1/2	1
16916	Tree Radius	1/2	1
16918	Tree Radius	3/8	3/4
