

NEW SIZE! NEW GRIT!

IBS HIGH DENSITY POWER FLAPS

Type 27 & Type 29

- **High Density Design** is 60% thicker than standard flap disc products.
- **Offers more conformability** for a better finish.
- **Lightweight design** reduces operator fatigue.
- **Easy to use** - very little surface pressure required.
- **Rigid reinforced fiberglass backing** eliminates the need for back-up pads.
- **Cool cutting** permits light contouring and prevents burning.
- **One-step grind and finish** reduces down time and finishing costs.
- **Tough construction** allows for aggressive edge grinding.
- **Extended life** - fewer wheel change outs and reduced inventory costs.
- **Hi-Alloy abrasive composition** yields consistent performance - new zirconium granules are continually exposed throughout the life of the product.
